## DETAILS

The SA5300 delivers high quality and high speed inkjet printing with graphics and spot color capability in a full 3" of print. Simple to set up and run, this desktop system provides professional results.

### 1. Quality Feeder

Fully integrated feeder handles up to 750 #10 envelopes. Media accepted includes postcards, envelopes, self mailers, flats and booklets in sizes up to 14" x 15.5" and up to 1/2" thick. Synchronized speed and product sensors on the feeder maximize productivity and performance.

### 2. Print Engine

3" of print using (2) 1-1/2" printheads. Clear plexiglass lets you monitor printing and see your job in progress.

### 3. Controls

Adjustable dial to accommodate media up to 1/2". Easy to read LCD display for simple operation.

### 4. Versatile and Dependable

Prints logo, return address, message line, indicia, address and barcode—all in one pass. Versatile black, and spot color available. Reliable HP technology.

### 5. Options

The SA5300 can be aligned with a TCD72 conveyor/dryer for extended drying time, optimum performance and professional results. Neatly stacked mail improves handling on high volume runs.

Prints all this in one pass...logo, return address, indicia, outgoing address with barcode\*, message line and graphics, even applies spot color!

\* We are ready to print the 4-state barcode when you are!  
Envelope is sample only and does not indicate exact proportions and placement of items being printed.
